

Lisa Beck, MD

Carol & Lowell Goldsmith Professor of Dermatology
University of Rochester Medical Center
Rochester, New York, USA

Dr. Beck is the Carol & Lowell Goldsmith Professor of Dermatology, with secondary appointments in Allergy, Immunology and Rheumatology and Pathology at the University of Rochester Medical Center. Dr. Beck was instrumental in the development of the first biologic drug, dupilumab for the treatment of adults with moderate to severe eczema. She has had continuous NIH funding since 1994, to study allergic inflammation, epithelial barrier function and to better understand AD patients' susceptibility to bacterial and viral infections; and is part of the NIAID-funded Atopic Dermatitis Research Network (ADRN). She has been Section Editor for the *JID*, past member of the American Board of Dermatology, member of the NEA Scientific Advisory Board, a Board member, Vice President, President and now Past-President of the SID, Past -Secretary of the IEC, member of the ADCare Steering Committee and both a standing and ad hoc reviewer for several NIH study sections. She has published over 140 research papers, 15 chapters or review articles, and 11 editorials and holds two patents. Her work has been recognized by numerous awards including honorary memberships to the American Dermatology Association (ADA) and Collegium Internationale Allergologicum (CIA), as well as a number of named lectureships including the Swinford Conference [UVa], Dr. Frederic Blum Visiting Professor Lectureship [Duke Univ], Royal Academy of Medicine in Ireland (RAMI), Irwin Blank Forum [SID], Elliot F. Ellis Lectureship [AAAAI], Dr. and Mrs. Paul Cook Visiting Professorship [Duke/SE Consortium], Hermann Pinkus Memorial Lectureship [ASDP], Gail Shapiro Lectureship [AAAAI], Donald Leung Lectureship [AAAAI], Jack Strahan Lectureship [JHU], Duhring Lectureship [UPenn] and Donald L. Levin MD Lectureship [Northwestern Univ].
